Skip Buran I was the shift commander the first night. Then SSgt Penniston had every opportunity to report everything as it happened. There was no pressure to do otherwise. There was no panicked call for assistance, no incredulous description of an unknown object, nothing. They went, looked, and came back. No one was traumatized by the event. No one requested medical help. The Suffolk Constabulary constables who responded also found.....nothing. Folks, this is a non-event, at best a hoax, and is being blown way out of proportion by people who may have self serving motives. It's too bad dissenting opinions don't last long here.

Skip Buran Oh, and time travel is impossible.

Skip Buran And has nothing to do with imaginary UFOs.

Tom Johansson Skip skip, time travel is really possible, or are you going to talk against the brightest minds of physics today? You've better read up on it before making your comments. Not every civilization in this universe and other parallel universes are as young as we. Just telling you the truth Skip.

Skip Buran On the first night I dispatched MSgt Chandler to the back gate to collect weapons, SSgt Penniston and I think Amn Cabansag to take a look. I had them leave their weapons on base w/Chandler. I made it clear that it was a British concern, but I was worried that a small aircraft may have crashed in Rendlesham. This was the ONLY reason I sent USAF SPs to what was thought to be the scene. When nothing was found, I had them come back and write statements. Those are reproduced everywhere, as you know. I considered the matter closed. I am not aware of what happened on subsequent nights.

@Skip, hello Skip why the change of story Skip? I can post your statement if you would like... It is much different than what you are saying up there..... And the other thing, why isnt my statement signed or dated? It is because my statement does not exist, because I never wrote one for you...because it was not written... I wrote one statement with all information, that was to AFOSI, the statement in Colonel Halts office was hand written and signed.... the only one that has been published...is a unsigned, and undated typed statement. This is the statement AFOSI wanted release to Command... That also includes you.....

One other issue Skip.... If our conduct was suspicious or out of the ordinary or we were lying..... and not doing business the usual way we worked.... why would you not relieve us of duty... as you, MSgt Chandler, Major Zickler, and others in the chain of command were required to do under PRP... also a temporary decertification should have been done, a medical review, and then with the results in, we would either be perminately decertified or reinstated... None of this happened..... Can you explain all of that.... After all you were required to do this.... Nope you did not, and put us back to work around priority "A" weapons... Explain this to me... I truly would like to know...

I know the answer, I just want to hear what you would say...

Skip Buran Post the statement. I asked for statements from everyone, and since nothing was found, and nothing was seen and no emergency existed, we got on with our mission which was not rambling around in Rendlesham forest. I remember a statement made about an object, claiming there appeared to be one, but no one could get close to it. It's because there was no object.

Skip Buran There was CERTAINLY no claim of any contact with ANYTHING made that first night.

Justice for the Bentwaters 81st Security Police at Rendlesham Forest 1980 Well, John will be on here later too.... What about the halt letter? This is not What You Told Linda Moulten Howe on the Phone, just the other day, I am a little perplex right now with you... Skip... so you has gotten to you? Someone must have talked to you, was it Conrad or Williams... It must be the officer code, huh?

Why have you done a 180 degree turn after all these years... and how do you explain the original statements of a metallic craft in the woods... Of course we have never said we had alien contact.... but, we did contact a craft-of-unknown-origin...

Justice for the Bentwaters 81st Security Police at Rendlesham Forest 1980 Well, not holding anything against you, your information was limited on the event. But, why would you say nothing happened? We needed a good reason for deployment... let me pull yours and Chandlers statement. I will post it..then.

Kevin Conde Besides the well known names like Warren, Pennsiton and Halt there were others there. There was a whole squadron. I worked for Bruce Englund. Bobby Ball was the security flight chief opposite me. I was almost certainly the Woodbridge patrol or the LE flight chief the night of Halt's expedition. All I remember was the laughing about the people seeing UFO's. It was not treated seriously at all.

You can throw all the rocks, make all the claims you want, belittle the non-believers until you are blue in the face. It does not change the fact that it was a non-event when it happened, and the stories of the believers are the ones that have morphed over time. I've been married to the same woman for going on 37 years. She also retired as a SMSgt, and was with me at Bentwaters/Woodbridge. She does not remember one word about UFO's being mentioned while we were in England.

Kevin Conde And simply because the practical joke I played raises some real questions does not mean that it did not happen. Just because I did not mention until 2005 does not mean it did not happen. Perhaps I'm being honest and I was completely unaware to the little cottage industry that grew up around Rendlesham. Maybe when I read some of the descriptions on the statements Skip Buran had written my response was "Oh Shit" that sure sounds familiar. Driving circles, colored lights, spot lights, orange and green flash lights.

If such an event had occurred she would have remembered it even if she had not actually been at East Gate. And don't give me that bilge about it was "classified" and "we were sworn to secrecy" That crap only happens in the movies.

Kevin Conde If the USAF did not make a big deal about it, it was because they were appalled that a Light Colonel would be so nutty as to take a bunch of security troops and some guys from disaster prep on an extended walk through the woods in a foreign country. IN THE DARK. We wouldn't do that in the United States due to the Posse Comitatus Act. Something we LE troops were briefed on every six months. If we would not do it in our own country, why the hell did we do it in a foreign country so every newspaper in the UK could ridicule the nut case yanks?

The higher command carefully ignored it in the hope that it and LtCol Halt would just fade away.

If Skip Buran says it was nonsense that night it was. If Bruce Englund even refuses to discuss it, probably because he knows it is only opening a door to let true believers nit pick every comma....

I've been a cop my entire life. I've never ceased to be amazed at the things people do or what they will believe. I'm a firm believer that the eye witness is often the most unreliable. I routinely say things to the effect that "you can make this stuff up." Why is that that otherwise normal humans always want to take the most unreasonable explanation for the most mundane things. I don't work patrol much anymore, but I will

Skip Buran While not having any reason to dispute anything said over the radio the night of the incident, I will gladly explain the contents of my statement to anyone, any time, and I won't have to embellish and expand the incident as I go along. Sorry guys, I have always hesitated to say anything against anyone because I was not out there that first night, but there are no victims of anything and to try to imply anyone is a victim is ludicrous. And Jim, no one has "gotten to me". I haven't spoken to anyone except Georgina and those who keep calling me to corroborate a

UFO (which I can't and won't do).

Justice for the Bentwaters 81st Security Police at Rendlesham Forest 1980 So, how are things going with you Skip? Last I heard you were in Georgia... Forget last night, I just got caught up with all the waffle that was going on... It will not happen again..... I dont know if you know this, but Georgina passed away a couple of years ago from cancer...
9 hours ago · [Flag](#)

Justice for the Bentwaters 81st Security Police at Rendlesham Forest 1980 I wont collaborate a UFO either.... it is the "I want to believe" people out there that cause the most damage to this incident... so it is best to stay away from waffle..

Skip Buran Yes, I was contacted by Georgina's brother when she passed. Too sad, we were going to England and had plans to meet and talk when all that transpired. Oh, and I still disagreed, respectfully, with Georgina.

Skip Buran Oh and I think Cabansag's statement gives the best explanation of the lights.
9 hours ago · [Flag](#)

Skip Buran Someone please pass me a copy of MSgt J.D. Chandler's statement, mine is barely legible (in Georgina's book).
