JUSTICE FOR 81ST

**RENDLESHAM '80**

Information

Description:

In late December 1980 the fine men and women of the USAF 81st security were exposed to something unexplained in Rendlesham Forest.

Their Command chain left them high and dry. We demand Justice for the 81st and we demand an explanation from the US government as to what they were exposed to. We demand the USAF release their classified files on the incident.

Chris Arnold I love how the sheep element of this silly UFO fan club want me to prove that something didn't happen. For those of you who think that calling people liars is offensive, well it's my opinion and I'm entitled to my opinion. These idiots calling for justice for the 81st SPS Rendlesham story-tellers are a disgrace to the unit, the wing and the USAF. Let me make it exceptionally clear that no one in officialdom gives them any credence. Justice... Jesus Christ, justice for what? Why can't anyone explain just what is the injustice done to these guys? When these guys prove their story I'll be happy to apologize and retract my opinion that they are just blowing smoke up people's asses. You wanna be a serious student of UFOlogy, then do your job and ask serious, hard, probing questions. Don't accept fuzzy, twisted, contorted rambling theories. The credibility of your little hobby is at stake.

Chris Arnold You UFO types are your own worst enemies. No one will ever take you serious unless you self-police and expose those who are simply using your enthusiasm to make money or a name for themselves. Why is it you don't see Burroughs or Penniston challenging my words here? Kick that around for a few. I've posted probably a dozen comments here and almost no one has said anything. To me that speaks volumes about the quality of the people who buy into this hoax. Are you thinking, living, human beings or simply stupid sheep who are so desperate to believe in UFO's that you cling on to absolute bullshit? So far the latter seems to be the case.

Chris Arnold If you people are so serious about UFO's if you research the events and seriously believe they exist WHY are you diminishing the credibility of legitimate research by giving any credibility to these fraudsters? I challenge anyone to demonstrate or show me one single piece of evidence that conclusively proves that an alien spacecraft landed in the Rendlesham Forest. I live in the real world, the world of facts, proof and legitimacy. Nothing I've seen here, nothing I experience at Woodbridge, Burroughs, Halt, Penniston and the rest are unable to even get on the same page. Their versions of events change, evolve and become more desperate with each spinning of the tale.

Chris Arnold You people who buy into this hoax need to ask these people some serious questions. Why is it these three people are the only people out of thousands who lived and worked at the twin bases to make such assertions? Why is it that the rest of us from 81 SPS and 81st TFW ignore them, laugh at them and make fun of them? They embarrass us because their bogus assertions make collectively stain the reputation of a great unit. Put me in front of anyone of these poor justice starved guys and you'll soon discover they have zero credibility. Do not simply buy the rubbish these people are peddling without taking a very hard look at their stories. These guys took months if not years to create this myth. Had there been a real UFO there would be dozens of people standing together, not three goof-balls who can't even get on the same page.

Someone needs to explain to me exactly what these people consider to be unjust? One can't create a fantasy event and then claim injustice when people call bullshit on you. I was in 81st SPS, I was in the forest. What am I missing? Perhaps these poor unfortunate guys had an alien anal probe that affected their brains. That's certainly where there heads seem to be at!

It's interesting that I was invited to join this group yet for some reason my posts seem to disappear. I'm a 20 year veteran of the USAF and a former member of the 81st SPS. I wandered around for two nights in the Rendlesham Forest chasing lights back in Dec, 1980. C'mon John, you and "Stopper" must remember. Hey John, care to explain why on Unsolved Mysteries you stated you were suddenly and unexpectedly sent to Korea from Bentwaters? Did you forget about your two years at Grissom AFB Indiana where you lived across the hall from me in the dorm. By the way, what is the injustice that you poor victims have suffered? What is the terrible fate you three have suffered at the hands of the government and the USAF because of your encounter? C'mon John explain how your chain of command left you high and dry.

Tracy Farley Chris it is very rare for me to go into strings such as this.However I am on this occasion .Time research is a very very serious subject indeed.Might I suggest that you take a look at the very real research that is presently underway.This will give you and others a good insight to the present situation within the Time sector.I personally am not overly familiar with Dr Maletts work,But I am very familiar with Dr Andersons work of the Anderson institute,you might wish to take a look.I personally know Dr Anderson and have met with him and I have discussed with him the level of research that is taking place.The most serious places presently are in India and Korea and also some serious research now taking place in Russia,with new investments and labs,from what I am aware.The technology is very exciting.Specially time control technology as it has many applications and uses for the future.So please do take a good look into this area of Time..Many answers within the field of the UFO subject are also woven into this.The Rendlesham story has many sides to it and my views we must look at all angles and weed out what is rubbish,Its a bit like pandoras box....Have a wonderful day.

Chris Arnold Tracy... if time research is so viable and serious why is it sharing the spotlight with these kooks and liars? Time research... hahahahahahha yeah, it's so serious.

Tracy Farley My question to you Chris,you appear very ticked off with Rendlesham and I would ask why.Im all ears if one has proof of anything that is incorrect.I cant speak as to why the video of above is here.I can only speak from the knowledge I know.Accusing others of being lias and so on,requires evidence.Do you have this?
3 hours ago · [Flag](#)

Chris Arnold Tracy, you want me to prove something didn't happen? Care to explain how I do that? Why don't you ask John Burroughs, Penniston and Halt to prove what they say. I spent two years of my life serving my country thousands of miles from home away from my family. The Legacy of the 81st SPS shouldn't be this hokey, bogus UFO shit. It should be about the sacrifice and service of thousand of American's who over the years kept Europe safe and free. You ask me for evidence? What evidence have you ever gotten from any of these people that this is accurate? Give me one example of solid evidence that supports their UFO claim. Just one.

Chris Arnold Oh please. This High Ranking Official didn't confirm anything. In fact Lord Norton was so uninformed he had no idea that A-10's are incapable of delivering nuclear weapons and the weapons storage area at RAF Woodbridge was used for training only during this period. C'mon, ask some questions you bunch of sheep.

Tracy Farley Well I do believe one gentleman will indeed come past and explore this area further. My views we must remain polite and explore as much as possible, without getting frustrated and annoyed. I do agree we must ask questions.

Chris Arnold Tracy, you just said absolutely nothing. You "believe" one gentleman will indeed come past? WTF does that mean? I'm one gentleman and I'm telling you that these guys are full of shit. I'm not interested in being polite when scammers blowing smoke up my ass.

Tracy Farley Then please start with evidence support your words?
3 hours ago · Flag

Tracy Farley Start with one factor that is false and why in the Rendlesham story from the beginning. Let us do this thing.. Lets find what is false, or what you believe to be. I like leaving no stones unturned and let those in the story answer.
3 hours ago · Flag

Chris Arnold Your question is far too general and bogus. The onus of proof is not on me. It's not on people who say this is bullshit. The burden of proof is on those who claim to have seen a UFO. Make them prove it. So far they have utterly failed.

Chris Arnold And just what would this "cause" be? By the way, do you mean the book that's number 3 million something on Amazon top 100? The book with one review that concludes by saying that Randles proves nothing? Her book Sky Crash was an amateur effort and this book appears to be a concoction of her "hopes and wishes" that a UFO landed in the forest. The best part of the book is the comic book horror movie cover! Great job on that! As for the story... well...she wasn't there now was she?

Chris Arnold I was there in 1980 and this isn't Roswell. Not even close. However, come to mention it, Roswell just turned out to be a high-altitude weather balloon. I suppose since that was deemed bogus and we know this Rendlesham thing is a sham, I suppose you might be right! Two make-believe incidents. As much as I appreciate the sentiment of "remembering" those who were there I would prefer you remember my presence and those of my fellow USAF cops was to protect freedom and democracy from the russians. it was the cold war and I assure you my contributions defeating that menace are what I want included in my legacy... not this fraudulent make believe crap.
